## Monitoring post-fire effects from the 2001 Nuyts wildfire

### Key publications and documents

McCaw L and Middleton T (2015) Recovery of tall open eucalypt forest in south-western Australia following complete crown scorch. *Fire Ecology* **11** (3) 95-107. doi: 10.4996/fireecology.1103095

Middleton T (2001) Nuyts Wilderness fire impact report, 7-11 March 2001. Department of Conservation and Land Management.

### Knowledge Transfer

Findings from this project have informed recovery actions following large bushfires in the Warren Region including the 2012 Babbington and 2015 O'Sullivan fires.

Knowledge gained from this project has been incorporated into Fire Management Guideline E2 Tingle forest.
